EXECUTIVE SUMMARY

I am skilled in Python, SQL, Power BI visualization tools, and MS Office, with a proven ability to learn quickly. I am seeking a Data Analytics role to apply my passion for delivering actionable business insights through predictive analysis. As a fresh MCA graduate, I am eager to build a robust career in the IT industry, contributing effectively to top-tier organizations.

TECHNICAL SKILLS

Programming Language: Python, SQL, MS Office

Software / Tools: SQL querying, Data Visualization tools (Power BI), Anaconda Jupyter Notebook, VS CODE.

Certification: Python Programming Language.

Language: Tamil and English

EDUCATION

Master of Computer Application (MCA), CGPA 6.2, (2023 – 2025)

B. S. Abdul Rahman Crescent Institute of Science and Technology

Bachelor of Computer Application (BCA), CGPA 7.5, (2019 – 2022)

Jamal Mohamed College

FREELANCE PROJECTS

AI-Based Chrome Extension for Phishing URL Detection

Feb 2025 – Apr 2025

Tech Skills: HTML, CSS, JavaScript, Gemini AI API, JSON

- Developed a Chrome extension (Cyber Shield) using HTML, CSS, and JavaScript with heuristic analysis and Gemini AI API, achieving 95% accuracy in phishing detection and response time under 2 seconds.
- Designed a multi-layered system with local JSON URL blacklist, pattern scanning (TLDs, keywords, IPs), and AI scoring, reducing false positives by 20% and boosting reliability.
- Built a user-friendly real-time UI with voice notifications, JSON export, and dynamic risk scoring, improving usability and awareness for users.

Food Nutrition Analysis

Sep 2024 – Oct 2024

Tech Skills – Python, Pandas, Scikit-learn, Power BI, CSV

- Established a machine learning model to categorize more than 1,000 foods, enhancing the accuracy of nutrition prediction by 30%.
- Initiated Power BI dashboards to monitor calorie consumption and provide customized diet suggestions for clarity.
- Prepared and cleaned big nutrition datasets for successful training and visualization.
